Professional Synopsis

Over **19 years of experience** in **SAP development and solution design**, starting with **ABAP** and **Fiori/UI5**, integrations and later evolving into cloud technologies on **SAP Business Technology Platform (BTP)**.

Skilled in architecting and implementing enterprise solutions using **Integration Suite**, **SAP CAP**, **Build Process Automation (BPA)**, and **Business AI**, designed to work seamlessly with **S/4HANA** and **SAP Fiori**.

Strong background in **SAP Integration Suite**, **FrendS iPaaS**, and **Jitterbit**, delivering secure and reliable integrations across **SAP** and **non-SAP systems**.

Hands-on experience in **ABAP**, **OData**, and **BTP Mobile Services**, combining solid technical knowledge with **design thinking** and a focus on **automation, innovation**, and **business simplicity**.

Skill Set

SAP BTP Consultant

- Experienced in designing and developing enterprise solutions on **SAP Business Technology Platform (BTP)**.
- Hands-on knowledge of **SAP CAP**, **Fiori/UI5**, and **Build Process Automation (BPA)**.
- Worked with **Business AI** and **cloud extensions** to build smart and practical applications that connect well with **SAP S/4HANA**.

Integration Architect

- Skilled in **SAP Integration Suite (CPI)**, **FrendS iPaaS**, and **Jitterbit** for connecting SAP and non-SAP systems.

- Focused on creating secure, reliable, and scalable integrations that ensure smooth data flow across business systems.

Development & Automation

- Strong background in **ABAP**, **OData services**, and **BTP Mobile Services**.
- Experience using **Docker**, **Jenkins CI/CD**, **Google Cloud Platform (GCP)**, and **Kubernetes** to automate builds and improve performance.

Database & Low-Code Platforms

- Worked with **SAP HANA**, **MySQL**, and **MongoDB** databases for application and reporting needs.
- Familiar with **Outsystems** for low-code app development and have a good understanding of **solution design** and **DevOps practices** on the cloud.

Work Experience

Neomore Consulting Oy (2025 – Present)

SAP BTP Architect / Integration Lead | Finland

- Designed and implemented AI-assisted monitoring and notification framework for **SAP Integration Suite**.
- Led internal innovation projects on **SAP CAP**, **Joule**, and **SAP Build Process Automation**.
- Developed proofs-of-concept integrating **SAP Business AI** with **CAP** and **Int.Suite** applications.

Sofigate Oy (2019 – 2025)

Senior SAP BTP / Fiori & Integration Consultant | Finland

- Designed and delivered custom **Fiori** apps for **Metsähallitus** to manage Business Partners (2019–2023).
- Developed **Finance Apps** and **ABAP enhancements** for **HMD Global (2019–2023)**.
- Created **ABAP reports** and workflows for **Kemira (2020–2021)**.
- Integrated **SuccessFactors** and **ECC** via **SAP Cloud Integration (CPI)** for **HKScan (2020–2022)**.
- Delivered multi-system integrations for **Nordec (2023)** using **CPI**, **FrendS**, and **Jitterbit**.

Atos India Pvt. Ltd. (2014 – 2019)

SAP Fiori / BTP Consultant & ABAP Developer | India

- Built custom **Recruitment Fiori** apps for **Orion (2017–2019)**.
